Pavement Conditions

The PCI rating for the entire paved street system declined to 54.7 based on the 05-2023 Construction Cost Index increase of 1.021823.

The current level of backlog (bringing roads above the critical PCI number) is \$29,530,685.

To achieve a PCI rating of 72, will require spending \$3,300,488 per year for the next 10 years.

To achieve a PCI rating of 80, will require spending \$4,046,419 per year for the next 10 years.

To achieve a PCI rating of 58, will require spending \$1,696,226 per year for the next 10 years.

To maintain the current PCI rating of 54.7, will require spending \$1,594,044 per year for the next 10 years.

If the current level of spending, approximately \$500,000, happens for the next 10 years, the road system PCI rating will drop to 45. The backlog of unfunded projects will increase to \$43,018,748 at the end of 10 years.

PCI Rating

- Good (86-100) 4.70 miles
- Satisfactory (71-85) 6.59 miles
- Fair (56-70) 7.84 miles
- Poor (41-55) 9.82 miles

ePermitting is the web based link to building in Cottage Grove. ePermitting allows a full line of building permitting services developed by Accela who operates and maintains the program in partnership with Oregon Building Codes Division.

Contractors can register for ePermitting, get trained on how to use the system, and log into their ePermitting accounts to apply for permits, pay for permits, request inspections, and track permit activity.

Property Owners can access the website, look up permits that have been issued through ePermitting, and may obtain an ePermitting account to request inspections once a permit has been issued. Property owners are now able to apply for permits online.

The **ePermitting** web site is found at: www.BuildingPermits.Oregon.gov
